

# OVERVIEW OF SERVICES

## YOUR ONE-STOP SHOP FOR PROACTIVE CYBERSECURITY

LMG Security has been featured by NBC News, the New York Times, and the TODAY Show, and regularly conducts cybersecurity training at world-class industry conferences and organizations. Our expert team is ready to help!

### PENETRATION TESTING

Don't leave your organization vulnerable to an attack. Let our expert team find flaws before the attackers do.

- Penetration Tests
- Red Team Tests
- Social Engineering (Phishing, Phone or Onsite)
- Attack Simulation and Response Tests
- Mobile Application Tests
- Web Application Penetration Tests
- Threat Hunting
- Cloud Configuration Review (O365, AWS, GCP, Azure)
- Firewall Configuration and Review
- Wireless Security Assessments

### ADVISORY & COMPLIANCE

Are you looking for guidance on how to build a stronger, holistic security program? We work closely with you to understand your organization's unique needs and help you make the best choices.

- Cybersecurity Controls Assessments (NIST, ISO 27001, HIPAA, FFIEC CAT & more)
- Virtual CISO
- Security Team Augmentation
- Cyber Insurance Policy Review
- Incident Response Plan & Playbooks
- Policy & Procedure Development/Revision
- Risk Assessments
- Vendor Security Vetting/Oversight

### CYBERSECURITY SOLUTIONS

LMG's experts will reduce your risk by curating, installing, and optimizing solutions.

- Multi-Factor Authentication (MFA)
- Password Managers
- Patch Management Verification
- Continuous Vulnerability Scanning
- Endpoint Detection and Response (EDR)
- Backup Configuration and Testing

### TRAINING

Equip your team to deal with the cybersecurity threats that they encounter on a daily basis. We provide relevant and engaging training for employees, executives, IT teams, and your community

- On-Demand Cybersecurity Training (powered by KnowBe4)
- Board of Director Training
- Broker & Underwriter Training
- Tabletop Exercises
- Cyber First Responder Class (1-day or on-demand)
- Ransomware Response Class (1 day or on-demand)
